# System Management

## User Login

A screenshot of a 'Login' window. It features a title bar with a small icon and the text 'Login'. The window has a blue border. Inside, there is a 'User:' label followed by a dropdown menu showing 'zhengjun'. Below it is a 'Password:' label followed by an empty text box. There are two buttons: 'Login' with a green arrow icon and 'Exit' with a blue circular arrow icon. At the bottom, it says 'The selected User Role :'. Below that is a 'Language' label followed by a dropdown menu showing 'English'.

## Main Window

A screenshot of the 'Main Window' of a software application. The window has a green title bar with the text '-user002[]'. Below the title bar is a menu bar with 'File(F)', 'Data(D)', 'Operation(O)', 'Tools(T)', and 'Help(H)'. Below the menu bar is a toolbar with various icons. Below the toolbar is a tab bar with 'Magzine View', 'Mail Sending', 'Media Publish', 'File Upload', and 'Customer Sync'. The 'Magzine View' tab is selected. The main area displays a table with the following columns: SID, ID, Name, Editor, Period, Address, Big, and Middle. The table contains 15 rows of data. At the bottom of the window is a status bar with the following text: 'Magzine Num 17 | Mail Sending Num 44576 | Media Publish Num 0 | File Uplopad Num 7 | Customer Sync Num 0 | 2014/03/21 11:48:40 ...'.

## Database Management

### Database Config

When you run this program without a database ,you should use install Db to install a MS

SQLSERVER On the system.

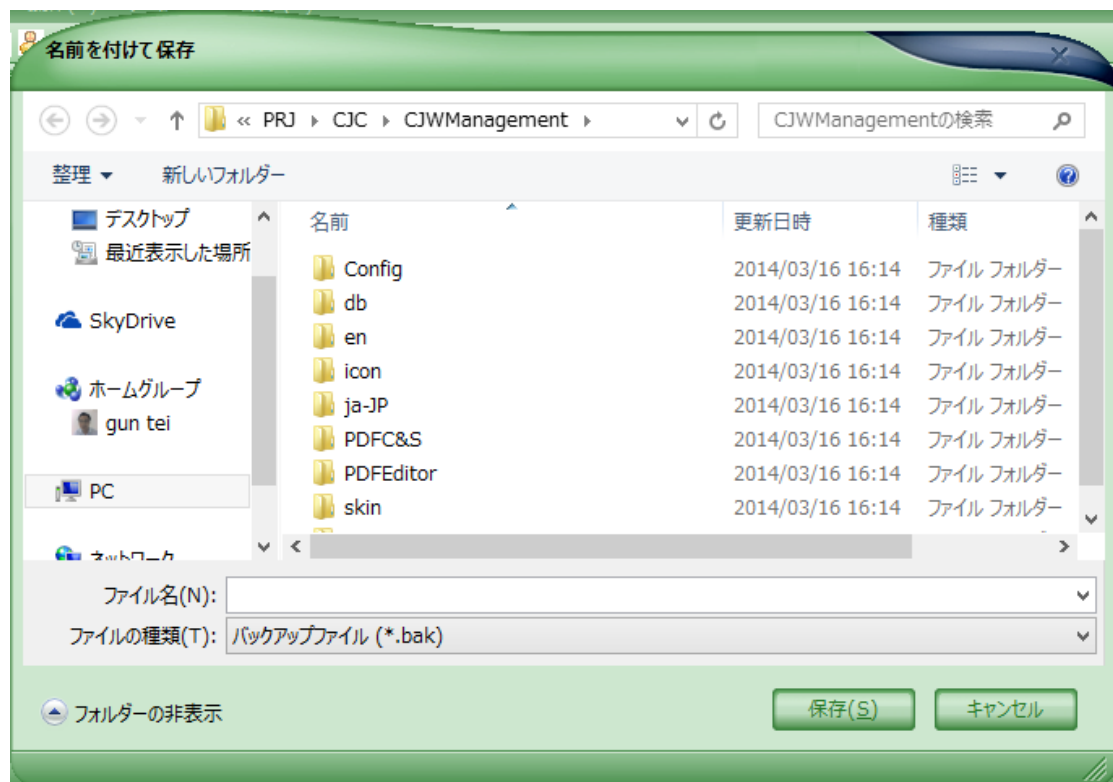

Install DB will start the next application to start install database.

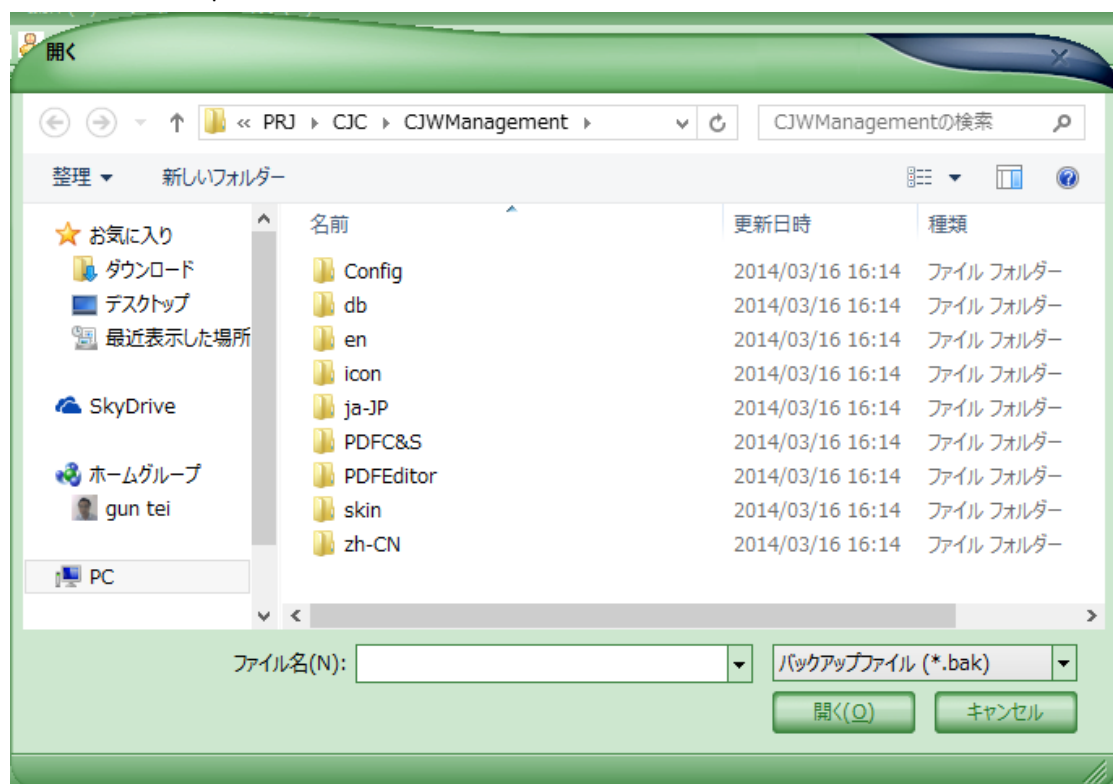

Database Backup

Backup you database to a writeable file.

## Restore Database

You can use restore database to restore your database 。 you should be careful because all the data before backup will lost.
